Name: _____
Latitude: 55°59'02" 00'
Longitude: 133°15'02" 02"
Geodetic Map No: Craig D-4
Location: El Capitan Passage, west shore
of Clam Cove, 1/4 mile from head, creek
and lake.

Catalog No: 103-90-08
Former Stream No: FWS 25A, ADF No. 159
Work Area: Ketchikan
Watershed Length: 0.6 mile
Drainage Area: 0.6 mile
Water Supply Type: source is at a lake.

Trails & Survey Routes: the stream can be walked from the mouth to the beaver dam
easily. The area from the beaver dam to the lake is more difficult.

Aerial Survey Notes: the small size and amount of overhead cover prevent aerial
surveying except for possibly mouth counts.

Anchorage: Clam Cove has several rocks that show at low water but a boat can anchor
there if care is exercised.

Tide Stage when Surveyed: 1/2

RESOURCES

COMMERCIAL FISHERIES (species, escapement, timing, spawning area):
Primarily a pink and coho stream. Excellent rearing for coho. Only known survey
8/4/77 - 100 pinks.

SPAWNING AREA: 57 M² (440' x 7' x 20% ASA)
Schooling Areas: at the mouth.

Spawning Areas: in scattered areas throughout the stream between the high tide
area and the beaver dam. No intertidal spawning.

SHELLFISH POTENTIAL: clams and dungeness crab present in Clam Cove.

SPORT FISHERIES: the lake probably contains an excellent population of cutthroat.

LAND USE (history, present, proposed): unknown, presently in a natural state.

REHABILITATION POTENTIAL: none needed.

SOILS: generally stable banks.

GAME RESOURCES (species, use, habitat): there is a very well worn game trail
that follows the left bank of the stream. The beaver dam is active. Deer tracks
noted along the stream banks.
